

AHERN'S MASSAGE THERAPY SCHOOL COURSE CALENDAR FOR 2012

Live your New Year's resolution and be the change you want to see in the world

Dear Students and Friends,

For tree long years I have been raising sled dogs to live out a dream of running the 1100-mile Iditarod race in Alaska. The time has come for my Adventure to begin.

August 30, 2011 I begin my two-week long road trip with my 20 trusted companion canines. We will travel over 4000 miles traversing through Canada before entering the beautiful state of Alaska and our final destination in the town of Willow. There with some great friends my dogs and I will train together to be the best team that we can be.

Our first race will be the Yukon Quest in February, covering 1100 miles just as the Iditarod. Should I finish I may be racing the Iditarod. Should I not be able to do the Iditarod I will still have the satisfaction of having completed and lived a dream and a great adventure.

During my absence my dear friend Michele will keep postings of my adventure through Facebook. She will also look after my school and be available via email and phone. I will return April 2012 eager to teach, heal and share my adventure. Thank you for your support, love and friendship.

Namaste,

Thomas
